

# TEAM CERTIFICATION STATEMENT INSTRUCTIONS

Players are NOT to participate in this tournament until they have signed the Certification Statement and you have verified their skill level.

These Certification Statements are ONLY for the World Qualifier.

- Distribute one statement to each team participating in your World Qualifier. This must be done prior to the start of your tournament. **(We suggest a week ahead of time.)** If you distribute the statements the day of the tournament you need to make it clear to teams they cannot play anyone who has not signed the statement.
- **WARN YOUR TEAMS** - We want your Team Captain's to look at their full roster and then submit skill level adjustments for the players they believe are better skilled players.
- Explain to the player's that the skill level they sign off on **should be the level the player believes they are capable of playing.**
- Check to make sure every member of the team has signed this statement. If not, get this signed prior to the team's next round of play. **Any player who does not sign is to be marked ineligible and their skill level cannot be used.**
- Keep track of the completed forms because you will be required to send in the complete statement for all teams advancing to the World Pool Championships.
