

Dear APA of North Alabama members:

With the Alabama governor putting even stricter restrictions on all residents, all APA of North Alabama League Activities including weekly play, qualifiers and tournaments are suspended until **April 30th**. We will continue to monitor the situation and keep you informed as to when we will resume. There are still many unknowns and we do not have the answers at this time. This is a situation that none of us have ever had to deal with. We are working closely with APA Headquarters on how we will proceed past **April 30th**. Playoffs and World Qualifier dates will most likely need to change, but until we know when this will end, we do not know when we will be able to resume our normal League activities.

- 1. Doubles Divisions will begin as soon as we have a specific date on when we will be able to get back into our host locations.**
- 2. Junior Academy is also postponed until further notice.**

These are trying times for our members, our Host Locations, our pool community...the country and the world for that matter. God speed to our health care professionals, health care employees and first responders as they work to get this virus under control. Also keep those that are directly affected by the restrictions on our Host Locations and all businesses affected by the most recent shutdowns in your thoughts and prayers. Stay in communication with those that have compromised immune systems and the elderly who are at the highest risk. Make sure that they are able to get food and the supplies they need to keep them safe. We are all in this together, and we need to all work together to get through this.

Most importantly, keep yourself safe. Please follow the recommended social distancing protocols. Limit your exposure outside of your home to essential tasks only. Make use of home delivery of necessary supplies and basic essential needs whenever possible. **Take an antibacterial wipe with you when you pump gas for the nozzle. If you don't have that then wash your hands after using the pump.** As always, Wash your hands often. If you are sick, stay home and call your physician for advice. If you have recently traveled abroad or to a highly infected area, self quarantine yourself for 14 days. Cough or sneeze into a tissue or the inside of your elbow. If you are diagnosed with COVID19, please let us know so that we can assist you in any way possible.

We will keep you informed as this situation develops.
